MARCH GAZETTE 2019

"The word 'March' comes from the Roman 'Martius'. This was originally the first month of the Roman calendar and was named after Mars, the god of war. March was the beginning of our calendar year. We changed to the 'New Style' or 'Gregorian calendar in 1752, and it is only since then when we the year began on 1st January. The Anglo-Saxons called the month *Hlyd monath* which means Stormy month, or *Hraed monath* which means Rugged month. All through Lent the traditional games played are marbles and skipping. The games were stopped on the stroke of twelve noon on Good Friday, which in some places was called Marble Day or Long Rope Day. The game of marbles has been played for hundreds of years and some historians say that it might have been started by rolling eggs. In the past, round stones, hazelnuts, round balls of baked clay and even cherry stones have been used."

REMINDERS BEFORE YOU GO……..

MANUFACTURED HOMES: Put away any loose items that are around your homes, do not pile or store anything around your home, secure all doors and windows and put shutters up. There are many items out there to help prevent mold or mildew from getting into your home or set you're A/C at 90 degrees on auto, or have a fan running. Check all your faucets and toilets for leaks, turn your water off at either the outside connection to the home or the meter to prevent any damage to the inside of your home if a pipe should break.

RV'S: Remove your water hose and sewer connection and store in your RV. The grass grows very quickly and mowers are in here weekly and the heat and humidity are hard on them and will cause them to weaker or rot. Do not store any loose items under your RV, if you have a shed make sure the doors are secure and it is a small Rubbermaid shed strap it around and secure. We had a few of them blow apart during a hurricane a few years ago. Fill all 3 of your tanks with water, at approximately 8 lbs. to the gallon it gives a lot of stability to the RV. PLEASE PUT YOUR SEWER CAP BACK ON WHEN YOU REMOVE YOUUR SEWER HOSE TO PRVENT INFIILTRATION INTO THE SEWER.

IF WE HAVE A STORM AND YOUR HOME OR RV ARE DAMAGES IT IS THE OWNER'S RESPONSIBILITY TO PAY RENT UNTIL THE HOME/RV HAS BEEN REMOVED OR REPAIRED.

THE SEWER CREW WILL BE HERE FOR MARCH and will still be jetting the lines , doing camera work and sealing the pipe where infiltration is happening. Please be aware of trucks when they are in your area and keep the lid down on your toilets, put something over the drain in your sink and bathtub to help prevent issues. In your home.

MARCH 8 & 9 IN FRONT OF THE KEY CLUB.

8 am to ?

We will not be having a community wide yard sale in March and planning a different type of yard sale for the spring. Bring your table and items to sell and we will set up in front of the Key Club in the parking lot. We will have great exposure from US 1 and all are welcome to come sell their wares.

New Orleans did not host the first North American Mardi Gras.

Mardi Gras is believed to have arrived in North America on March 3, 1699, when the French-Canadian explorer Pierre Le Moyne d'Iberville camped about 60 miles downriver from the future site of New Orleans. Knowing it was Fat Tuesday back in France, Iberville named the spot Point du Mardi Gras and held a small gala. A few years later, French soldiers and settlers feasted and wore masks as part of Mardi Gras festivities in the newly founded city of Mobile (present-day Alabama). To this day, Mobile claims to have the oldest annual Mardi Gras celebration in the United States.

King Cake is only eaten during Mardi Gras.

Available only during the Mardi Gras season, king cake is typically made with brioche dough. Braided and laced with cinnamon, the dough is then glazed with purple, green and gold sugar or covered in icing in those same Mardi Gras colors. What really sets king cake apart from other desserts, however, is the small plastic baby hidden inside. Whoever finds the baby in his or her slice must buy the next cake or perhaps host the next party.

RV TIPS

When To Turn Off The Plumbing: If you are planning to leave your RV unattended for an extended period of time, always remember to turn off the plumbing going into your RV. In the event of some type of interior plumbing failure, this tip will save you untold amounts of clean up and possibly an expensive repair bill.

Add A Fish Eye Mirror: As big as some RV's can be these days, there is a lot of danger involved with blind spots and a fish eye mirror can reduce that somewhat. It will also help when it comes time to back your rig up, especially when near other objects.

Keep A Stocked First Aid Kit: Being in an RV can usually mean that you are miles from the nearest medical facility. In the event of a medical emergency, you need to make sure you have anything you might need to hold things over until help arrives. A first aid kit that has a variety of different things in it is invaluable to the RV traveler. Good idea to keep one in your auto as well and include a blanket and spare pair of walking shoes for an emergency.

To keep your drains clean and flowing freely try using baking soda (about 2 tables spoons in each drain) then add vinegar (a cup) let stand for an hour and flush with lots of boiling water (4 cups should do it). Do this on a monthly basis and will take care of clogs and keeps it smelling nice. This works at home also.
